

Privacy Policy for SoberScan **Effective Date:** September 24th, 2025

SoberScan (“we,” “our,” “us”) respects your privacy. This Privacy Policy explains how our app collects, uses, and protects information when you use SoberScan.

Information We Collect SoberScan is designed to operate entirely on your device.

- No personal data is collected, stored, or transmitted to our servers.
- The app uses your device’s camera solely for the purpose of analyzing eye movement and pupil response during the impairment screening.

How Your Information Is Used - Data from your camera is processed in real time on your iPhone.

- Results are displayed only to you and are not shared unless you choose to do so.
- We do not collect identifiers (such as name, email, or location).

Data Sharing - We do not sell, rent, or share personal information.

- No third-party analytics, advertising, or tracking frameworks are used.

Security Since SoberScan does not transmit or store data externally, risks are minimal. Standard iOS security (such as FaceID/TouchID, device encryption, and secure system APIs) helps protect your device.

Your Choices - You can delete the app at any time, which removes all results from your device.

- You control whether to share your results with others (e.g., by screenshot).

Children’s Privacy SoberScan is not directed at children under 13. We do not knowingly collect or store information from children.

Changes to This Policy We may update this Privacy Policy occasionally. Updates will be posted at: <https://soberscan.app/privacy>
